

Greetings CBHA Community!

My name is Gary Szolomayer and I am very much honored to be selected as your new Operations Manager of the Carlyon Beach Homeowners' Association.

I come to you with over 20 years experience managing homeowner associations, condominiums associations, multifamily housing communities, water-based communities, vacation homes and marinas, often managing these facilities simultaneously. I am excited to have the opportunity to concentrate and focus my energies on only one, your community.

My passion for working with people from every walk of life is what propels my enthusiasm for what I dearly enjoy doing. Only when the community achieves its goals and is able to refer to its projects as accomplishments, do I feel the joy associated with success.

In my personal time I enjoy the company of good friends, sailing, everything the Puget Sound and Pacific have to offer, as well as traveling. I live on the west side of Olympia with my wonderful wife who is also my best friend. We have two fantastic daughters of which one is attending graduate school for her masters in sociology and the other is busy completing a four-year degree in forensic science.

I don't work effectively just from behind a desk and like to get out, get my hands dirty, associate and become one of the community. I am very approachable and an open book when it comes to resolving an issue or just getting acquainted.

So please don't hesitate introducing yourself if you see me pass your way and I'll do the same! I am truly looking forward to getting acquainted with the Carlyon Beach community and the residents who call it home.

~Gary
