

New Dock

Our new dock will be delivered this week. The permits to install the new dock are not effective until July 9th, therefore it be moored on the shore side of "A" Dock until we remove the old dock.

If you're willing and able we would appreciate your help disassembling and removing the old dock. We will have a meeting to organize the removal of the old dock on July 7th at 6:00 pm at the clubhouse. If you can volunteer for a few hours or a few days, please let us know and/or attend the meeting.
